

QUICK LOOK-UP

Continuous Flow Production Rates *Output Per Module*

	liters	m ³	kg*
Per Week	140	0.15	72
Per Month	600	0.6	315
Per Year	7,200	7.5	3,800

Assume approx. 0.5 kg per liter. Actual amount may vary with moisture level and feedstock type.

Pre-composting reduces volume and weight

- Food scraps reduce by about 1/2
- Manure + bedding reduce by about 1/4
